

Alejandro Ollivier Ochoa

Coahuila, Mexico · +52 871 332 4759 · aleollivierocha@gmail.com

Systems Engineer focused on front-end and full-stack development. Passionate about clean code, user-centered design, and building efficient, scalable digital products. Experienced in React, PHP, Laravel, and SwiftUI, combining technical performance with UX/UI vision. Led development initiatives from scratch using Agile methodologies, emphasizing automation, quality, scalability, and security.

EXPERIENCE

Rancho Huitrón — *Quality & Data Capture*

December 2025 – Present | Coahuila, Mexico

- Prepared and implemented processes aligned with Good Livestock Practices (BPP) standards.
- Led digitalization of operational records within the stable, improving data traceability and management.

Ollidevs — *Co-Founder*

November 2025 – Present | Coahuila, Mexico

- Managed projects as lead Project Manager, overseeing planning, timelines, and team coordination.
- Onboarded and trained clients on delivered software solutions, ensuring successful adoption.

AWSSoftware — *Front-End Developer*

October 2024 – Present | Coahuila, Mexico

- Developed and maintained corporate websites using PHP, Laravel, and JavaScript, improving scalability and stability.
- Enhanced metadata, SEO, and content structure, boosting organic visibility by 25%.
- Optimized responsive layouts and reusable components, increasing mobile usability and accessibility.

AIE Consulting Group — *Web Developer*

June 2024 – October 2024 | Querétaro, Mexico

- Built 3+ dynamic web applications using React.js, Next.js, and Tailwind CSS, improving load times by 45%.
- Customized Odoo CRM modules across 3 departments, automating over 12 business workflows.
- Integrated RESTful APIs handling up to 1,200 requests/sec during load testing.

T-Systems — *Full-Stack Developer*

July 2022 – December 2022 | Puebla, Mexico

- Provided Figma and Notion consulting for 4 Agile teams, reducing design-to-dev hand-off time by 25%.
- Served as Scrum Master for a cross-functional team of 7, improving sprint delivery rate by 15%.

PROJECTS

Stomadida — iOS App · github.com/azu-any/MyStoma

Health-tracking app for stoma patients in SwiftUI with data visualization and multilingual support.

Social Service App — iOS App · github.com/Alepepi/Serpientesypoemas

Educational SwiftUI app that gamifies poetry learning, aligned with the SEP national curriculum.

IoT Attendance System — Web App · github.com/MegaChestercat/IoT-Project

RFID + ESP32 attendance platform with real-time dashboards and analytics.
